

F-255

Napping Wax
PDS

Description

F-255 is made from wax and surfactant. The product has good stability, good insulation and a high flash point. F-255 does not easily react to other substances in general storage conditions. It can be added to the formulation of fleecing agents to give fabrics a thick and fluffy touch.

Characteristics

- F-255 is a stable and easily dilutable fleecing wax.
- Good fleecing ability, giving fabrics a thick and fluffy touch.

Properties

Appearance	Transparent to yellowish liquid
Active ingredient(%)	30.0%
pH(10%Solution,25°C)	7.0±1.0
Diluent	Water
Ionic Type	Nonionic

Safety

This document does not contain the safety information required for the product. Please read the safety data sheet for this product before use.

Storage & packaging

When stored in its originally sealed packaging at 5°C - 40°C, this product may be stored for up to 8 months from its manufacturing date. Comply with the storage instructions marked on the packaging. Once past this expiration date, TAI COUNTY CHEMICAL no longer guarantees that the product meets the sales specifications. Product comes in 120 kg HDPE blue drums.

Processing

- For a more prominent fleecing effect, you can use F-255 together with ES-360 and 3T-60.
- For more information, please contact Tai County.

The data provided above is to the best of our knowledge and experience and is without any warranty. Users should thoroughly test any application and independently conclude satisfactory performance before use.
