

# NMA

High Molecular Softener  
PDS

## Description

NMA is designed for some special fabrics like denim to improve the uncomfortable hand feeling. We add a unique functional group increasing the film-forming ability to make the hand feel like wool fabrics, excellent smoothness, and softness. Even gives the fabrics rebound and fluffy feel.

## Storage & packaging

When stored in its originally sealed packaging at 5°C - 40°C, this product may be stored for up to 8 months from its manufacturing date. Comply with the storage instructions marked on the packaging. Once past this expiration date, TAI COUNTY CHEMICAL no longer guarantees that the product meets the sales specifications. Product comes in 120 kg HDPE blue drums.

## Characteristics

- Improves the hand feel in special fabrics
- Excellent smoothness and rebound
- Easily dilutable
- Increase fabric evenness

## Applications

- Applicable in T / C, CVC, T woven fabrics
- Applicable in some special fabrics

## Properties

Appearance	Transparent to milky liquid
Active ingredient(%)	30.0%
pH(5%Solution,25°C)	6.0±1.5
Ionic type	Cationic
Diluent	Water

## Processing

- Padding process

NMA :10~30 g/L  
 Soaking temperature :Room temperature  
 Setting temperature :150°C/2.5mins  
 (Depending on the actual conditions, you can adjust the usage amount.)

\*Attention\* This product is high reactive chemical. Please finish the application before effective period.

## Safety

This document does not contain the safety information required for the product. Please read the safety data sheet for this product before use.

The data provided above is to the best of our knowledge and experience and is without any warranty. Users should thoroughly test any application and independently conclude satisfactory performance before use.
