

E-814L

Emulsifier of Amino Silicone Fluid
PDS

Description

E-814L is an excellent emulsifier. It almost no odor. Good emulsifying capacity and permeability. Mainly use in industrial wetting agent and emulsifier. Gives nylon and cotton fabrics special touch. E-814L has a low-foaming quality in emulsion processing.

Storage & packaging

When stored in its originally sealed packaging at 5°C - 40°C, this product may be stored for up to 8 months from its manufacturing date. Comply with the storage instructions marked on the packaging. Once past this expiration date, TAI COUNTY CHEMICAL no longer guarantees that the product meets the sales specifications. Product comes in 200 kg iron blue drums.

Characteristics

- Environmentally friendly
- Excellent wetting agent
- Economical and practical
- Low odor

Applications

- Emulsifier

Properties

Appearance	Transparent to slightly cloudy liquid
Active ingredient(%)	100.0%
pH(10%Solution,25°C)	6.5±1.5
Ionic type	Nonionic
Diluent	Water

Safety

This document does not contain the safety information required for the product. Please read the safety data sheet for this product before use.

The data provided above is to the best of our knowledge and experience and is without any warranty. Users should thoroughly test any application and independently conclude satisfactory performance before use.
