

900type

Powerful Napping Agent

PDS

Description

900type is a stable and water dilutable non-ionic emulsion with a solid content of 60%. It is for mass industrial and specialty chemical applications and is compatible with other silicones.

Characteristics

- Good releasing, lubricating and glossing ability for numerous industrial and specialty chemical applications.
- Good fleecing ability especially on microfibers.
- Does not affect color of rubber or plastic parts.
- Imparts smoothness and drapability to textiles.
- Compatible with other silicone emulsions if blending is desired.

Properties

Appearance	Milky white liquid
Active ingredient(%)	60.0%
pH(10%Solution,25°C)	5.0±1.0
Ionic type	Nonionic
Diluent	Water

Safety

This document does not contain the safety information required for the product. Please read the safety data sheet for this product before use.

Storage & packaging

When stored in its originally sealed packaging at 5°C - 40°C, this product may be stored for up to 8 months from its manufacturing date. Comply with the storage instructions marked on the packaging. Once past this expiration date, TAI COUNTY CHEMICAL no longer guarantees that the product meets the sales specifications. Product comes in 120 kg HDPE blue drums.

Processing

- Padding process

900type :5~15 g/L
 Soaking temperature :Room temperature
 Setting temperature :150°C/2.5mins
 (Depending on the actual conditions, you can adjust the usage amount.)

The data provided above is to the best of our knowledge and experience and is without any warranty. Users should thoroughly test any application and independently conclude satisfactory performance before use.
